Subject: PJSTCA Letter about Proposal for Lawrence Aviation, PJS, NY

The Port Jefferson Station Terryville Civic Assoc. has received the site & elevation drawings for a proposal at the Lawrence Aviation superfund site in PJS. This would allow the site to be utilized in three ways besides the existing NYSDOT Greenway trail which would need some modification. The proposals would be a LIRR electric/battery train yard an open space area by the residential homes and a light industrial area. These were presented to the civic members at the PJSTCA April mtg. and was discussed. The civic assoc. members reviewed the plans and elevations and approved this letter to be sent to Suffolk County and various legislators via email. This Civic Association as a practice does not Reject or Accept proposals, but the PJSTCA has voted that it has No Objections to this proposal.

The Civic Association would like to work with the County and all agencies on this proposed transfer of the land so it can be developed according to wishes of the community. Those would be to have the train yard for electric engines, open space, modification of the Greenway trail and the civic voted for a solar farm on the light industrial area to limit access and help power both the community and the LIRR. We would appreciate being kept in the loop as the Architectural/Site drawings are developed for this project. We support the needed transfer of property to allow this to start the next planning phase. We look forward again to working with your groups in our Port Jefferson Station Terryville Hamlet.

Respectfully,

Sal Pitti, PJSTCA President (boyleroadcommunity@gmail.com)

Charles McAteer, PJSTCA Corr. Secy. (cfmcateer@gmail.com)
